

The Air Flow Experts... Celebrating 18 Years in Business!

## Capability Statement

Looking for a more stable environment through proper ventilation? You're in the right place! We provide specifically designed solutions for off-grid/on-grid moisture prevention, fume mitigation, odor control, and heat dissipation. Find your trouble on our website and explore why our game changing, multi-patented technology works when others won't!

## Differentiators

- Achieves air-exchange utilizing the laws of physics.
- Requires no power source to function.
- No moving parts/Maintenance Free.
- Can be used anywhere without restriction.
- Can be installed in minutes without major modifications.
- More effective during adverse/turbulent weather.
- Built-in screens for insect and pest prevention.
- Patented Technology with Proven Results!

## Core Competencies

- Moisture Control
- Fume Mitigation
- Container Rain Prevention
- Odor Control
- Excessive Heat Build up Prevention
- Caustic Chemical Ventilation
- Methane Mitigation
- Electrical Boxes
- Holding Tank Odors
- Sewers & Septic
- Attic Ventilation
- Crawl Spaces
- Shipping Container, Conex, & Cargo Trailer uses
- Fulfills Residential & Commercial Needs
- Marine Application in Beta Testing
